

# Alliance Solutions Group, Inc.

## Company Profile

***Providing Service that Pays for Itself***

ASG is a highly-reputable, small business that provides professional services to all levels of corporate entities, government, and international organizations. Founded in 2005, ASG has grown rapidly by employing specialized subject matter experts who provide premier industrial hygiene, occupational health, safety, and emergency management services.

Our highly-educated, experienced and professionally certified staff provide our clients with results that achieve risk reduction and cost savings. Because we integrate multiple disciplines from a diverse staff, we are comprehensive in our approach to each project. We employ proven experts with advanced degrees in occupational health, toxicology, environmental health, safety, public health, engineering, business and emergency/disaster management. Our clients have benefited from innovative solutions for their complex industrial operations because of our unique approach to project management, understanding our customer's requirements and focus on practical solutions.

ASG works with each client to increase compliance with internationally accepted health and safety standards while reducing risks in the workplace by:

- Creating a culture of safety
- Developing objective sampling strategies
- Providing on-site assessments and sampling
- Coordinating laboratory analyses
- Interpreting analytical results
- Providing risk reduction solutions through training, engineering, personnel, or administrative controls, and program monitoring to ensure effectiveness

**For every \$1 invested in an effective workplace safety program, \$3 to \$10 may be saved as illnesses, injuries and fatalities decline.**

*Source: Liberty Mutual Insurance Company*

Statistically, employers benefit from these services by:

- Experiencing a 9.4% decline in injury rates
- Realizing 26% reduction in injury-related costs
- Reducing lost time compensation with no harm to profits
- Increased employee satisfaction
- Increased productivity
- Fewer lost work days (due to illness/injury)
- Lower worker's compensation and liability insurance rates
- Improving environmental stewardship
